

Season 2 Episode 23

Stuck in a Moment You Cannot Get Out Of

The streets of the crazy town at night time and there is a thunderstorm. Sci-Fi looking robots block the exits and entrances to the town and to a lot of the shops in the town. Jake, Isaac, and Wayon are being chased by the Sci-Fi robots. They are on the street and they run up a fire escape and they end up on the roof of a building. They keep running and the robots keep following them. They hit the edge of the building and they almost fall off. They turn around and they see they are surrounded. Isaac looks at Jake and he said, "What do we do now?" Jake said, "I was carelessly following you around. I don't know what to do next." Isaac said, "With Annie gone, you are our great leader." Jake's eyes go big in fear. Isaac jumps left and right. Wayon keeps flipping over with his long arms. Jake looks down. Jake said, "It is better to die a great warrior than it is to live on as a coward." Isaac said, "Jackie Chan?" Jake said, "No, Shen Yung." Jake grabs Isaac and Wayon and he jumps off the edge of the building with them.

Jake, Isaac, and Wayon smash into a truck on the ground. They see a rugged man is driving it. Jake said, "You have to get us out of here." The man said, "You've come to the right place." He makes a sharp turn and he lures Sci-Fi robots into a building and they crash and explode. The driver keeps speeding down the street and he runs over and destroys two more of the robots. Jake gets into the front passenger seat. Jake said, "I'm Jake." The man said, "I'm Jonah. Here, take the wheel." Jonah gets out of the driver's seat and he gets on the undestroyed part of the roof of the truck. He takes out a rocket launcher and he fires it into a swarm of evil Sci-Fi robots. The entire swarm of them explodes. Jake tries to drive the truck but he keeps swerving around. Isaac gets into the front seat. Isaac said, "You are going to get us all killed. Let me take the wheel." Isaac pushes Jake aside and he takes the lead wheel and he rapidly turns the steering wheel back and forth. Isaac runs the truck into a ditch in the forest. Jake gives Isaac a stern look and Jake said, "At least I did not run the car into the ditch." Isaac said, "You would have gotten us killed if I didn't do this. You are lucky that I saved all our lives." Wayon said, "That is very true and you are the leader of this crew." Jake does a facepalm.

They get out of the truck in the ditch. They see Jonah is right next to it. He brings out a container and he opens it up and it is full of weapons. Jake, Isaac, and Wayon see all the weapons. Jake said, "Where did you get all these?" Jonah said, "From corrupt rich people that I raided." Jake said, "How did you do that?" Jonah said, "My skin is immune to any kind of damage." Isaac said, "I would like to try." Isaac takes out a baseball bat and he smashes Jonah in the back with it and the bat breaks in two and Jonah is left completely unscratched. Wayon grabs a lead pipe and he twists it into a coil and then he smashes it in half. Wayon goes up to Jonah and he karate chops his back. Wayon's fist glows red in pain and Jonah's back is

still left undamaged.” Jake said, “How, this is all strange. The last twenty-four hours have been very strange. I just don’t want Vector’s evil forces to find us and...” Jonah said, “Vector won’t find you. His reign over this city will not last long. I will take out that Vector and I will become the new mayor of this city. Order will be brought.” Jake said, “That sounds good but you have to help us save our friend too.” Jonah said, “Face it, I cannot save your friend. I am not a hero. I am a conquer. I only take over cities.” Jake said, “Maybe if you hear the story through, you will then want to help us.” Jonah said, “You could tell me anything but I doubt it will make me budge.”

Twenty-four hours ago, Annie, Jake, Isaac, and Wayon are at the museum of the crazy town. They look through glass display cases filled with diamonds and gold and jewelry and other odd relics. They see a glass orange and gold pyramid on display out in the open. Annie said, “Is that what I think it is?” Jake said, “What is it?” Annie said, “It looks like a...” Vector said, “An Egyptian Transuniversal Dimensioner.” Vector enters the scene. Annie said, “Good grief.” Vector said, “Pleasure seeing you again, Annie.” Vector grabs Annie’s hand and he kisses it. Annie smacks Vector in the face with it. Vector said, “This thing has the ability to trap people in other dimensions and you can control them when they are in the dimensions. You could even make them dissolve into nothingness. I need it to be mine.” Annie said, “You can’t have it.” Vector said, “How are you going to stop me?” Vector reaches over and grabs the Transuniversal Dimensioner and he holds it in the air. Annie pounds Vector and Annie said, “That thing is dangerous. You should put it back.” Vector pushes Annie off. Wayon grabs the thing out of Vector’s hands. Wayon said, “This would be a good play and it would look nice on display.” Isaac said, “In our place.” Annie said, “Isaac, Wayon, you can’t just take the thing like that. It is dangerous and it is not yours.” Annie fights Isaac and Wayon over the thing. A fight cloud forms over them. The mayor enters the scene and he pulls them apart. The mayor said, “I see you guys are fighting over one of our display pieces again. I don’t like this. Vector knows how to better treat this thing. I will give it to him then.” Annie said, “What?” Vector said, “It is mine now and you can’t have it.” The mayor said, “That is good. You see, it is important to not fight over things. Our society would be chaos if we were allowed to fight over things.” Isaac said, “Society already is chaos in a lot of ways.” The mayor said, “That is why all of you are in this town. You don’t belong in the regular mainstream world and so...” Vector is on the sideline and he rubs the pyramid and he aims it at the mayor. He activates it and it fires a beam at the mayor and the mayor is contracted into the beam and he is sent flying into the pyramid. Vector said, “I have the mayor. I can do whatever I want with him.” Annie said, “You will not get away with this.” Vector said, “I thought you hated the mayor. Aren’t you glad I have him stuck in here?” Annie said, “You cannot get away with this. There must be some kind of security here.” Sci-Fi looking robots enter the scene. They look at Annie and Vector and they say, “What seems to be the trouble here?” Annie said, “Vector incased the mayor in that pyramid.” Vector said, “I will do the same to you unless you shut up and agree to be my girlfriend.” Annie said, “Over my dead body.” Vector said, “It is settled then.” Vector activates the pyramid and the beam hits Annie and Annie is contracted into a beam and it sent flying into the pyramid. Vector said, “Let this be an example to everyone else here.” The robots said, “We are scared sir. Your wish is our command.” Vector said, “Good.”

Vector stands at the podium outside of city hall and the whole town gathers around it. Vector said, "I have this sacred pyramid that spells certain doom for anyone that gets on my bad side. Don't get on my bad side or your life is over." You all have to do as I say. I am the mayor and the dictator of this pitiful town. The robots will enforce my every command." The sky turns gray and a thunderstorm begins. Vector said, "Jake, Isaac, and, Wayon were associates with Annie. They must be brought to me at once." The robots head for Jake, Isaac, and Wayon and they run away from the robots. Other robots whip citizens and they force citizens to do unfavorable tasks for Vector. The robots make the citizens build statues of Vector. Jake, Isaac, and Wayon run away from the robots and they run up a building's fire escape and they end up on the roof and they fall off and end up in Jonah's truck (where the episode began).

Jake said, "So you see. That is how we ended up in this mess." Jonah said, "Sounds like a great story but it does not fuel me up. I have a burning hatred for your mayor and I shall do all I can to get him out of the office. I will also take down that fraud, Vector too." Jake said, "If you go against Vector, he may just do the same to you as he did to Annie and the mayor." Jonah said, "I have a feeling that his powers are no good on me." Jake said, "How do you know that?" Jonah said, "I don't know that. We are just going to have to take a risk. We can get this truck out of this ditch and we will go to that mayor's office and we will bring a new regime to this city. You may come with me. I cannot guarantee we will be able to save your friend nor do I guarantee you will not be killed or worse." Jake salutes Jonah and he said, "I am willing to take that risk." Isaac said, "I guess you could count us in too. We have nothing better to do today."

The truck is pulled out of the ditch and Jonah rams it down the street. He rams it through all the barricades made by the robots and he rams it through the front gate to city hall and he rams the truck through the front entrance. They jump out of the truck and Jonah punches down a robot and he smacks another one in the face. Jake punches a robot but it hurts his fist and his fist grows large and glows red. Jonah punches down that robot. Jonah said, "These robots are easy. I don't even need any weapons to take them out." The robot ignores Jake, Isaac, and, Wayon and they crowd around Jonah. They open fire on Jonah. Jonah blocks a lot of the shots with his fists. More shots than he can block are fired. They begin to rapid fire on Jonah. Jonah flinches slightly from the attacks and he punches a robot down. Jake said, "Those robots are completely ignoring us." Isaac said, "Is that a bad thing?" Jake said, "It isn't. Jonah will serve as our distraction. We need to go to the mayor's office. It is the only place I can think of where Vector would want to be." Jake grabs Jonah's weapons crate and he runs off with it with Isaac and Wayon.

Jake, Isaac, and Wayon go to the mayor's office and they see Vector with the pyramid. Jake said, "Unleash Annie, now!" Vector said, "What are you going to do to me." Jake thinks for a moment. He sees the container of weapons. Jake throws the container at Vector and it hits him in the head and he moves backwards and breaks the back window behind him and he drops the pyramid. Jake runs and he grabs the pyramid and he grabs Vector's arm just as Vector is about to fall and Jake stops Vector from falling. Jake looks at the pyramid. Jake said, "How do you get the pyramid to work?" Vector said, "Why would I tell you that?" Jake said, "I can let go of you now if you want and have you fall to the ground below." Vector looks down

below and he sees there is a very steep fall below him. Vector said, "Bring me back up there and I will show you." Jake thinks for a moment. Jake said, "Why would I trust you?" Vector said, "C'mon, you know you've beaten me." Jake said, "Forget about it." Jake drops Vector and he falls to the ground. Just as he is about to hit the ground, one of the Sci-Fi robots grabs him and flies him back to the mayor's office. Vector kicks the pyramid out of Jake's hand and he catches it. Vector said, "You didn't think you've beaten me that easy, did you?" Vector holds the pyramid at Jake, Isaac, and Wayon. Vector said, "Have any last words you want to say before I unleash this on you?" Jake said, "You are the scum of the earth." Vector said, "Your compliments are taken kindly around here." Isaac said, "Go jump off that duck over there." Vector looks behind him and he sees a duck walking around. Wayon said, "You are such a stooge and you are about to get Scrooged." Vector said, "A laugh would make your deaths less painful."

Jonah barges in the office and he jumps on Vector and he forces Vector to give up the pyramid. Jonah said, "Let go of it, now!" Vector said, "Never." Vector kicks Jonah in the face and he flips backwards and he activates the pyramid. The beam comes out and it hits Jonah but it does nothing on him. Vector looks at this and he said, "What's wrong with this thing?" Jonah said, "I've been through years of vigorous training and perfection and it was just for this moment. To put guys like you behind bars for good." Jonah walks into the beam and he grabs onto the tip of the pyramid that the beam is coming out of. Jonah stops the beam and deactivates it with his hand. Jonah rips the pyramid out of Vector's hand and he bonks Vector's head into his body. Vector blindly walks around the room and he falls out the same broken window and he falls to the ground and he hits the ground and there is a large puff of smoke around him where he hits the ground. Jonah said, "I remember this thing." Jonah gets a black and white flashback of him fighting some villain in a lab and the villain has the same pyramid. Jonah is drenched in several different liquids and his skin bubbles but shortly becomes immune to the liquids. He keeps walking to the pyramid. The villain uses the pyramid against Jonah and it does nothing. Jonah stops the pyramid and deactivates it with his hand and he bonks the villain's head into his body. Jonah holds the pyramid in his hands in the flashback and it goes to color (meaning back to present). Jonah looks into the pyramid and he fires a different looking beam and Annie and the mayor fall out of the pyramid.

Jake said, "You saved Annie." Annie brushes herself off and she said, "Unfortunately, he saved the mayor too." Jonah said, "I did that out of courtesy but next time, I may not be so nice." Jonah looks at the mayor and he said, "There is a price you have to pay me for what you did way back then." The mayor said, "I don't know what you are talking about." Jonah said, "Don't play stupid with me. I know you are lying." Jonah grabs onto the mayor's shirt. Jonah said, "Next time you cross my path..." Jonah points out the pyramid. Jonah said, "You will hear from me. I will legally obtain this city one day. For the record, this is mine since I rightfully earned it years ago." Jonah jumps out the broken window and he lands on the ground with both of his feet and he does not appear to be injured. He walks away with the pyramid. The mayor looks at everyone and he said, "I don't know what that was all about but I'm sure it will pass with time." Jake looks at Annie and he said, "What was that all about?" Annie said, "I don't know." Jake said, "What was it like in there?" Annie said, "I don't remember. I think it froze my memory

in time and in that same place.” Wayon said, “To remember is to forget but don’t forget we met.” Isaac said, “That’s the most sense you made all day.”
